“I’m so excited to see this book in print long before it was originally scheduled to be published. When writing this guide, I put a great deal of thought into telling fun stories about my adventures that would help people make great nature photos,” said Jim Miotke, President and founder of BetterPhoto. com. “The book is structured around the acronym L.C.D. which stands for Light, Composition and Digital Exposure, and we explore several subjects with these three most important components in mind.”
