## **BetterPhoto.com® Offers Great New Course for January!**

*"Sharpening Techniques: Unsharp Mask and Beyond"*

REDMOND, Washington – January 10, 2007 – BetterPhoto.com, the worldwide leader in online photography education, today announced the addition of a new 4-Week class, *Sharpening Techniques: Unsharp Mask and Beyond* to the January course schedule. Like all BetterPhoto courses, this course will be taught by a published, professional photographer, Todd Morrison. Photo assignments are personally critiqued by the instructor, giving students immediate feedback on their photographic work. January classes began Wednesday, January 3rd, and there is still time to enroll and receive the first lessons.

"Our Photoshop courses have been consistent 'best sellers' and this course on the Unsharp Mask tool is going to be a winner with our students!" said Jim Miotke, President and founder of BetterPhoto.com. "We are delighted to have this course to complete our January schedule."

Students in Todd Morrison's 4-Week Sharpening Techniques course will gain the ability to take control of the image sharpening process as well as how to use the sharpening tools creatively. Todd's vast experience as a Photoshop trainer makes him a master at demystifying these techniques with easy-to-understand instructions. Truly another great class from Todd!
